Project Overview

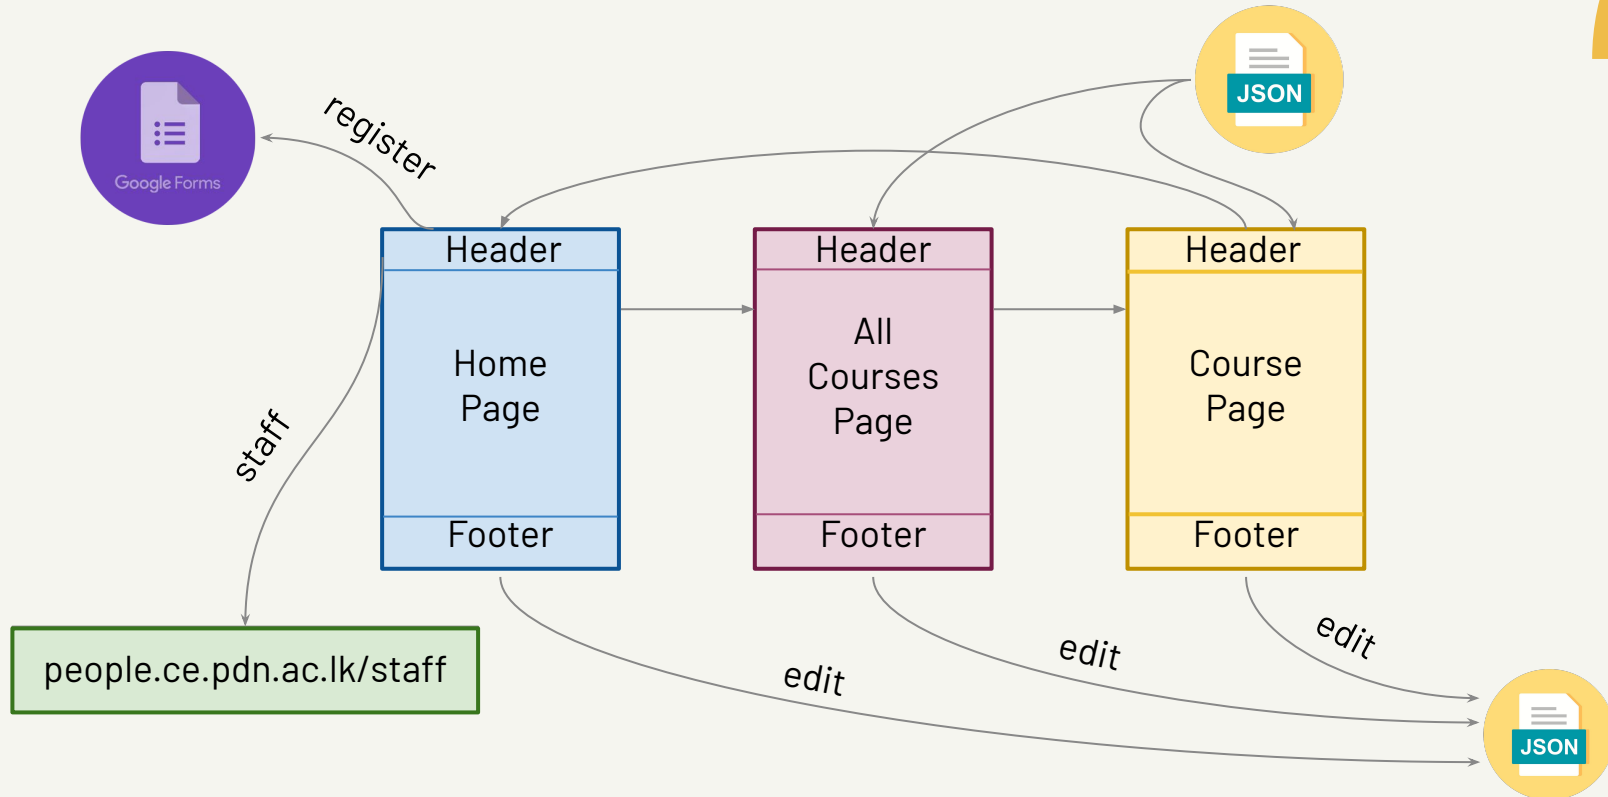

- Develop an informative web site to keep course details.
- Separate web page for each course.
- Detailed course page with statistical data.

Technology Stack

Solution Architecture

What We've Done So Far...

- Design UI using figma
- Create layouts
 - ❖ Home page
 - ❖ All courses page
 - ❖ Course Page
- Connect All Courses page with json files

Remaining Tasks

- Connect course pages with json files
- Create an API for the courses
- Create python scripts to automate the process
- Add github actions
